Workshop Location:

Seminole County Emergency Operations Center
150 Eslinger Way, Sanford FL 32773

This workshop is tailored to reflect the level of planning expertise of participants. This workshop will provide participants with information regarding:

- Baseline of what a Comprehensive Emergency Management Plan is.
- Why a Comprehensive Emergency Management Plan is important?
- How a Comprehensive Emergency Management Plan applies to the real world.

Participants will also learn how to navigate throughout the BOLDplanning platform and will have the opportunity to navigate throughout the platform on their own. The hands-on portion of the workshop will focus on the components within their Comprehensive Emergency Management Plan. The participants will work within their plan to:

- Review the Comprehensive Emergency Plan module on the Main Menu and how each of those sections integrates and links together to form a complete Comprehensive Emergency Management Plan.
- Review existing plans.
- Review Annex structure.
- Complete a cross check of compliance and other requirements.
- Develop Annex Action Lists by department including correlation with primary and supporting departments.
- Analyze existing emergency response capabilities and resources.
- Determine clear next steps for plan completion
